The screenshot shows the GitHub repository settings page for "Proyecto-P5". The left sidebar includes sections for General, Access (Collaborators selected), Code and automation (Branches, Tags, Rules, Actions, Models, Webhooks, Copilot, Environments, Codespaces, Pages), and Security (Advanced Security, Deploy keys). The main content area is titled "Collaborators and teams" and displays the following information:

- Access**: Private repository (Only those with access to this repository can view it).
- Direct access**: 2 entities have access to this repository: [Eljari](#) and [velazquezomar38-cpu](#).
- Manage access**: A list of users with "Collaborator" status, each with a "Remove" button.

A screenshot of GitHub Desktop showing a code editor window. The title bar says "Publish branch". The main area shows a file named "cartelera-angular\.editorconfig" with 27 changes. The code content is as follows:

```
    @@ -0.0 +1.17 @@
1 + # Editor configuration, see https://editorconfig.org
